

## CITIZENS PROTEST TO COUNCIL RECENT CELEBRATION FUNDS

**Council Will Not Grant Permission for Erection of Cairn on Main St; Allow Extension of Time For Building to Comply With Bylaw; To Borrow \$1,000 for School Board; Require Milk License to be Taken Out Within Ten Days; Poll Tax to be Legally Enforced; Coun. Cork New Deputy Mayor.**

Following is a record of the proceedings of the council of the Town of Wainwright at its regular meeting in the council chamber at 8 o'clock p.m. on Tuesday, July 4th, A.D. 1939.

The members of council present at this meeting were Councillors Robinson, Cork, Billing, Huntingford and Lismore.

In the absence of Mayor Middlemas, Deputy Mayor Huntingford presided over the deliberations of the council.

The recorded proceedings of council at its regular meeting of June 6th,

### NOTICE

The Annual Picnic of the Wainwright Old-Timers' Association will be held at Mott Lake, in the National Park, on the afternoon of Wednesday, July 19th, when a welcome will be extended to all.

Games, Sports, Booths, etc.

E. GODDARD, Pres.

## Conditions Good Says Crop Report

Moisture conditions are satisfactory over practically all the main wheat growing area of the Prairie Provinces, and recent warm weather is hastening growth, says the Bank of Montreal report.

Early sown wheat is heading out in many sections of Manitoba and in the south and central areas of Saskatchewan. Over the rest of the Prairie Provinces the wheat crop is generally in the shot blade stage. Grasshoppers are numerous throughout Saskatchewan but damage to date is slight. Hail storms have occurred in the three Provinces and some damage is reported in local areas. In Ontario the crop prospects generally continue favorable, with growth stimulated by timely rains and recent warm weather. Haying is general, with prospects of a fair yield. The strawberry crop has been heavy and other small fruits promise normal yields.

In Alberta, crop prospects generally continue the best in years, with ample moisture, except in the Peace River district and a small area north-west of Edmonton, where good rains are needed. Wheat is mostly in shot blade. The continuation of the warm weather at present, prevailing would ensure rapid growth; heretofore growth has been retarded somewhat by cool weather. There has been some hail damage in the central areas. Pastureage is excellent. Sugar beets are promising.

Moisture conditions in Saskatchewan remain generally satisfactory and prospects are favorable, except in the southeastern areas where crops are spotty. Early sown wheat is heading out in the south and south-east. Grasshoppers are prevalent throughout the Province but no extensive damage has occurred as yet. A light infection of leaf rust is reported, but the bulk of wheat is rust-resistant. Hail losses are reported in southeastern areas. Pastures are in good condition.

## World Champs Meet Edmonton Exhibit'n

The light heavyweight wrestling championship of the world will be decided on Wednesday night, July 19th, during Edmonton Royal Visit Exhibition Week—as the grand finale to a two-night wrestling programme included in Exhibition attractions at Edmonton, week of July 17 to 22.

Wrestling matches will be staged on two nights during the week, July 18 and 19 at the Arena, Exhibition Grounds, with the winner of the first night meeting World Light Heavyweight Champion, Danny Mathews, on the second night.

## O.E.S. Lodge Honors Mrs. Washburn

A pleasant time was spent by the ladies of Connaught Chapter, Order of the Eastern Star, on Thursday afternoon last, when they entertained at a tea in honor of Mrs. Washburn, Worshipful Grand Matron for Alberta.

Amid the lovely garden settings of the home of Mrs. Washburn a dainty lunch was served with Mrs. Kenny pouring tea, assisted by Mrs. Schitt and Mrs. McKenzie.

During the afternoon, Mrs. Washburn gave interesting little accounts of her visits to Portland, Tacoma and Chilliwack, which were in attendance at the Grand Chapters.

Mrs. Washburn received the congratulations of her local lodge members and the wish for a very successful term of office.

## Thrill Day at Lloydminster Exhib.

Lloydminster Exhibition, Monday, Tuesday and Wednesday, July 24-26, opens with a big Thrill Day, featuring Jimmy Lynch's Death Dodgers, world's greatest automobile thrill show, direct from New York World's Fair.

Seemingly impossible feats with an automobile will be attempted, roaring around the track in opposite directions with the daring drivers at the wheels, crashing head-on directly in front of the grandstand. Crash rolling and over and over, projecting an automobile over a 2-foot truck parked a distance from the end of a 52-inch runway—these and many other startling features will be attempted by Jimmy Lynch's Death Dodgers afternoons and evenings, Monday, July 24th only, Thrill Day at Lloydminster Exhibition.

## Imperial Oil Stars Stage Fine Program

Something like 1,200 people from the Wainwright district most thoroughly enjoyed the splendid offering which was staged by the Imperial Oil "Three Star" entertainers at the Elite last Thursday.

The theatre was well filled for the matinee, and at the evening show the room was at a premium; and each item was received with vociferous applause, the two-hour program consisting of musical numbers, ventriloquism, dancing, conjuring and comedy, leaving not one dull moment.

Included in the company, all under the guidance of Mr. Frank C. Anders, one of Western Canada's well-known entertainers, were A. Crawford, pianist; K. Outenash, violin and accordion; A. Ward, drums and traps; G. W. Stockton, sax; C. Dewhurst, trumpet; Betty Ann, singer and comedienne; Fayne Toms, dancer; Colin Bray, baritone; and Chris. Kelly, with his "Scotch" Charlie McCarthy.

This week the company is performing at the Calgary Stampede, and next week will fill an engagement at the Edmonton Exhibition. They are closing a long tour which has been promoted as a gesture of appreciation for the support they have received for their products throughout this district and the whole west.

## PREMIER GIVES SUMMARY GOVERNMENTAL PROGRESS

Despite intense heat, which made the hall almost unbearable, a large crowd turned out on Monday evening to the meeting in the Elite Theatre, which was addressed by Premier Wm. Aberhart, Hon. E. C. Manning, Mr. Wm. Massey, M.L.A., and other Social Credit speakers, in the interests of that party. A loud speaker system carried the addresses to the crowd outside who, unable to face the temperature within the hall, sat in cars or on the post office steps and took their politics in some degree of comfort.

Following a short period of community singing, the chairman for the evening, Mr. Frank Dixon, called on the first speaker, Mrs. Wilson, who, in a brief address, enumerated the natural resources of our Province and pointed out the ridiculous situation which existed—poverty in the midst of such abundance. She urged that the government should have the right to issue its own currency. She closed with an exhortation to the women of Alberta to do their own thinking instead of letting someone else do it for them.

Mr. Massey, M.L.A. for this constituency, was equally brief in his remarks. He outlined the government policy and their objective of credit control and had some strong criticism of Prime Minister Mackenzie King's failure to carry out his election pledges. Finally, he urged support of the government's interim program.

A brief musical interlude was provided by a vocal solo by Miss Audrey Greer, accompanied by Mrs. R. Greer. Next speaker was Hon. E. C. Manning, introduced by the chairman as "first officer on Captain Aberhart's ship of state". Mr. Manning outlined the issues which will be before the electors at the next election and suggested that the election, when it comes, may be the last chance to choose between government for the people, as represented by the Social Credit administration—and government on behalf and in the interests of the financial moguls. Failure to choose might mean the end of the cause of economic freedom back for many years. He classified all voters into five different groups, which he enumerated as follows: (1) the traditional or die-hard type, who voted a certain way because their parents and possibly their grandparents had voted that way in the past; (2) the sentimental voters who voted for a certain candidate regardless of the principles or policies for which he stood; (3) the short-sighted voters, who were so individualistic that they voted a different way at each election, always seeking to be different from their neighbors; (4) the patronage voter, whose vote was influenced by hope of personal gain; and (5) the intelligent voter, who studied the issues and voted according to his reasoning. Three things were required of the voters at the next election—get into the right group according to the above classification, then study the facts and, finally, pass the word along to friends and neighbors.

Premier Aberhart, who was the next speaker, touched briefly on the prospects of an election. He was unable to say when it would be held—possibly not until next spring—but sometime "soon" the electors would be called upon to sink or swim, to decide between reaction and progress, to choose between government in the interests of the people or in the interests of the financial institutions. New Democracy was sweeping the country like a prairie fire. Deducting intelligence as the ability to make a decision, he appealed for an intelligent vote at the forthcoming election.

Touching on the failure of the government to pay the \$25 dividends he compared the dividends to old age pensions, mothers' allowance, or any other method of increasing purchasing power of the people, and stated it had been impossible to make these payments because of federal disallowance of certain bills passed by his government and quoted a long agenda of legislation which was disallowed. He predicted that during the next six months the people of the province would be subjected to large quantities of "newspaper guff and nonsense".

The Social Credit government, when it took office in 1935, was faced with two problems: To carry out its own policies, and to give honest administration. Starting with the fact that at that time, the government had now established 392 treasury branches and agencies. Depositors could now place their funds in these institutions, with all safety, and use their credit for transaction of ordinary business without disturbing their capital. He explained briefly the use of vouchers and the 3% bonus paid where one-third or more of the total purchases were Alberta-made goods. He appealed for support for the newly-opened treasury branch in Wainwright.

Turning then to the official figures as supplied by the different departments of the government, he reviewed the record of the administration to date. Starting with the Liberal administration from 1905-1907, he reviewed the record of the administration to date. (Continued on Page Four)

## Farmers Asked to Deliver '38 Wheat

The Canadian Wheat Board asks the farmers to deliver their 1938 wheat immediately and by July 15 at the latest. As the 80c price is well above the open market figure and present prospects indicate that the 80c market will be hard to reach in the new crop year, there seems no reason for holding surplus wheat on farms, especially in view of the fact that the minimum price on deliveries to the Wheat Board after July 31st will be reduced to 70c basis 1 North-western at the terminals.

## News Flashes From Edmonton Exhibit'n

In addition to providing a full day-long programme of entertainment for patrons of the Exhibition, the week of July 17 to 22, Manager P. W. Abbott and the Exhibition Board have given considerable thought to the evening's programme, and for the 1939 fair have engaged a programme of very excellent attractions from the Barnes-Barnett Company of Chicago—one of the biggest and best-known companies purveying theatrical attractions on the continent.

The night show will include two hours of musical revue in "The Show of the Century," ever, and newest, vaudeville acts ever brought to Western Canada. In the revue, two or three of the numbers are exceedingly beautiful. Without going into detail, we will mention "Lilac Time" and "Snow White and the Seven Dwarfs" as episodes which will likely call for round after round of applause.

Two night programmes will feature fireworks—in all probability, those will be given on Tuesday and Friday nights, and the Edmonton fireworks progress, which is an enviable reputation to maintain, so they will be well worth seeing.

## Hospital Board Holds Regular Monthly Meet

The regular monthly meeting of the Board of Trustees of the Wainwright Municipal Hospital District No. 17 was held on Saturday last.

Trustees present were: J. Fuller, chairman; J. D. Collette, C. Bleasdale, O. J. Gould.

Minutes of the last meeting were read and motion of Trustees Collette were adopted—Carried.

Moved by Trustee Collette—That a letter of thanks be sent to the Wainwright Branch of the Women's Institute for the donation of two mirrors—Carried.

Trustee C. Bleasdale, chairman of the finance committee, reported he had examined the bank book and cash ledger and found them to be correct.

Moved by O. J. Gould—That accounts amounting to \$1,676.19 be accepted and cheques issued—Carried.

Moved by Trustee Collette—That 1,200 forms be printed for secretary re collections—Carried.

Matron's report was presented to the board for the month of June as follows:

Number of patients admitted	58
Surgical cases	26
Medical cases	26
Infants born	8
Deaths	4
Total hospital days	544

Moved by Trustee Collette—That matron's report be accepted—Carried.

Moved by Trustee Bleasdale—That meeting adjourn—Carried.

## Cooler June in Twenty-one Years

Last month was the coolest June recorded in 21 years, the weather bureau reported in a summary of the June weather. The average temperature for the month was 53.2, which was lower than the mark of 53.3 set in June of 1920. The high-temperature for June in the past 21 years was 60.9 in 1928.

The month set no other records. Rainfall at Wainwright totalled 3.27 inches, compared with a 21-year high of 5.97 inches in 1931 and a low of .87 of an inch in 1919. The highest temperature was 83, compared with 99 in '37, (all-time record). The low was 31, within three degrees of the 21-year mark of 28, set in 1923.

The month brought 203 hours of sunshine, compared with a high of 308.4 hours in 1919 and a low of 142.2 hours in 1931. Steady showers marked the month. An electric storm on Friday night closed the month.

## Warn Youngsters Of Motor Traffic

Fresh emphasis on the need of guarding children from accidents during the present holiday period, is receiving the attention of officials of the Alberta Motor Association.

Now that schools are out, motorists are being urged to keep a careful watch for children at play on the streets or highways. Many an accident will be averted if motorists use a little care in driving at points where youngsters are prone to spend their playtime periods.

Children are apt to be forgetful when at play and unthinkingly run across the road or street when chasing a ball or one another," says an A.M.A. official. "Possibly a motor car will be coming along just at that time, and unless the driver has full control of the car and has his brakes in good condition, a serious accident may result."

Last year there were over 5,900 motor car accidents in Alberta and most of these occurred during the summer holiday period. This year, by exercising special precautions, the number can be reduced.

Motor officials also point out that there is a duty on the part of parents at the same time to impress upon their children the vital need of using care when at street crossings and not to play in centres that are danger zones owing to the traffic volume.

## Plowing Match Big Attraction

The Gilt Edge A.A. is to be congratulated upon the success of the plowing matches held on the Art Smith farm just east of town on Saturday last. This is the first held in this section and the interest taken surely exceeded all expectations.

Professor J. McGregor Smith, of the department of agriculture, was judge of the work done, and his decisions were as follows:

Tractor plowing: F. Baker (87 pts), T. Rattray (82), G. G. Valieu (81½), 3.

Horse gang plowing: N. Branchflower (87), I. N. Cooper (82), J. H. Reid (81½), 3.

Prizes to the value of \$50 in each class were donated by local merchants.

Mr. T. W. Townley-Smith, of the Scott experimental station, and Mr. H. W. Kitching, district agricultural agent, both gave interesting talks on forage crop projects and agricultural policies of the department.

This branch of the A.A. is forming a feeder association in this district, and the set-up under the department of agriculture will be adjusted, and a farmer having a surplus of feed may be provided with cattle to feed for a period of 90 to 120 days at no cost to the feeder in the purchase deal. When marketed under this plan the feeder is only charged the cost of the animals plus transportation.

Should there be a loss, the government will bear 25% and the association 75% of the loss. About 100 head of cattle have been applied for under this plan to date in this district. All inquiries will be supplied by the local executive.

## Exam. "Injustices" To Be Remedied

Any injustices to students in connection with the grade 12 examination papers, over which protests were voiced at a meeting of the Edmonton public school board, will be adjusted, a member of the provincial examinations board stated recently.

Criticism of the trigonometry paper have been expressed here, particularly in regard to two questions which many students did not attempt to write, it is claimed.

"The examinations board will have the papers studied carefully," the member stated. "If it is found that the papers were too long or too difficult, proper steps will be taken. Any injustices will be adjusted and the interests of the students will be protected."

## Deyell Family Lose Eldest Son

Westley Edwin, the eldest son of Mr. and Mrs. R. A. Deyell, passed away at the hospital on Monday evening last in his 15th year.

The young lad was taken suddenly ill on Friday last and rushed to the hospital, where an operation was successfully performed on Saturday morning.

He appeared to be recovering nicely and on Sunday was somewhat stronger, but on Monday afternoon the patient had a sudden relapse and passed away as stated.

The deceased, who was born in Wainwright and has lived here all his life, leaves to mourn his parents, as well as one brother, Clifford, and two sisters, Jean and Lucille. There are also a large number of other relatives, including a grandmother (Mrs. Woods) and a grandfather (Mr. Hiram Downing). To all of these the Star extends condolences.

The funeral will be held today (Wed.) at 2 p.m. at the United church with interment later at Wainwright cemetery. McLeod's parlors are in charge of the arrangements.

## Says Wheat Crop About 10 Days Late

Less than normal rainfall occurred on the prairies on the average during the past week. In spite of this the total moisture now available to the wheat plant, judging by the rains which occurred last fall and from April 1st to June 30th for the prairie, as a unit, is still 116% of normal, as compared with a similar condition of 86% only at this time last year, all as shown by reports from 308 rain gauge stations.

An area in south eastern Saskatchewan, and in central Manitoba, where the only parts of the West which now lack proper moisture.

The wheat crop has a thick stand, but in Alberta and Saskatchewan it is from a week to 10 days late, and in Manitoba it is about 5 days late.

Many fields are now in the shot blade and the odd field seeded early in April is beginning to head out.

Wheat fields are more weedy than usual.

High temperatures and bright sunshine during the past week have done much to develop the crop. The usual amount of damage from hail has occurred, and there are reports of some slight traces of stem rust and leaf rust. The stem rust will not be of much moment, owing to the large area now seeded with rust-resistant wheats.

The important hazards which the crop has yet to face are those of "sheepshoppers, or possible damage from late summer or early fall frosts because of the relative lateness of maturity of the crop.

A C.B.C. group who were responsible for some of the recent broadcasts during the visit of Their Majesties the King and Queen to Canada.

ful ceremonies at the war memorial and trooping the color, were directed by Mr. H. J. Wray, of the headquarters staff, under Mr. W. C. Little, who supervised all activities in the Province of Ontario as C.B.C.'s regional representative for that province.

The pickups in the City of Toronto, at the Legislative Chamber at Queen's Park and the Woodbine Race track, were handled by the local personnel of the Corporation's studios in Toronto, under the direction of Mr. E. C. Stewart.

In the City of Winnipeg, the difficult arrangements for the most important Empire Day broadcast, during which His Majesty addressed his people throughout the Empire, were directed by C.B.C.'s Regional Engineer for the Prairie Provinces, Mr. R. D. Cahoon, who has supervised many of the Corporation's most difficult special events. An in-broadcast from the other western cities, he was assisted by Mr. W. W. Grant, one of the pioneers of radio in Canada, and by the engineering staff of the new 50-kilowatt C.B.C. station now under construction at Watrous, Saskatchewan.

The efforts of the C.B.C. engineers and the technicians who prepared and controlled the colorful broadcasts at specially chosen points of vantage along the procession routes in Vancouver and Victoria, were directed by the Corporation's Regional Engineer for the Province of British Columbia, Mr. N. R. Olding, assisted by Mr. Basil Hilton, Engineer in Charge of Station CBR.

In the Maritime Provinces, the engineering personnel of the Corporation's 50-kilowatt station at Sackville, New Brunswick, and that of its studios in Halifax, have co-operated in the preparation of the important broadcasts which brought to the rest of the world the farewell of the people of Canada to Their Majesties. The efforts of those technicians were directed by the Corporation's Regional Engineer for the Maritimes, Mr. J. A. Carleton, assisted by Mr. L. A. Canning, technical head of the C.B.C. studios at Halifax.

And so, across 33 cities of the Dominion visited by the King and Queen, the C.B.C. through its engineering Head Office in Montreal, had directed the efforts of its many representatives in each province and city to provide an unflinching service to listeners.

## Holiday Bound, The Prologue!

by A. B. CHAPIN

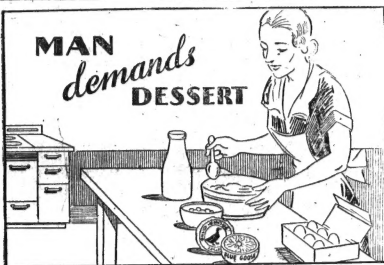

Tuberculous infection can always be discovered by the use of the tuberculin test. If infection is found by means of this test the child should have an x-ray of the chest. These cases of early tuberculous infection are readily cured if they are prevented from gaining any more infection. Usually all they need is to have rest, out-of-door life and good food. Early tuberculous is readily cured. Advanced cases may be improved but complete cure is doubtful. The moral is, "get the case of tuberculosis early".

the brow to the temples. Do this frequently during the day. At night massage with cream in the same direction.

These simple rules will help to prevent aging lines: First, wash regularly with gentle palmolive soap and warm water. Follow with a cold rinse. Secondly, make it a daily habit to give yourself the "six-minute makeup treatment" with the aid of the new three-purpose cream that is at once a cleansing cream, a foundation base for powder and a skin food. If you have any personal beauty problems, write to me for confidential advice. Detailed leaflets on the following subjects are available for 3c stamp each: Face, Hair, Eyes, Hands, Feet, Bust, Reducing in Spots, Under-

weight, Slimming, Superfluous Hair. Please write direct to: Miss Barbara Lynn, P.O. Box 75, Station B, Montreal, Que.

By MOLLY MARTIN

Dessert is a man's dish. Yes! I know it is often regarded as a child's dish, but eliminate it from your menu for a few days and you'll soon see that more complaints come from Dad than from little Donald or Dora.

A meal without a dessert is a picnic without baseball or a fishing trip without fish — so far as Dad is concerned.

Ready, the dessert may be made one of the most valuable dishes of the meal. And light fruit and milk puddings and custards can work wonders.

Through such desserts milk and eggs are furnished to children who dislike these valuable foods in plain form. Through these same desserts the needed minerals, salts and vitamins of fruits are supplied both to children and adults.

Orange and grapefruit are particularly valuable foods. Contrary to the belief of some, they have a decided alkaline reaction when taken into the system, and thus tend to balance acid-reaction foods that may be eaten during the meal.

Starting a meal either with grapefruit or orange juice is a very wise move. Flushing the meal with a light pudding such as the following is another move of the same type. I submit this recipe to you for your health's sake — and for the "sweet tooth" of your husband as well.

**Orange and Macaroni Pudding**  
1/2 pound almond macaroons  
1 pint milk  
4 eggs  
1/2 cup sugar  
2 Blue Goose oranges  
Soak the almond macaroons in the milk until soft. Beat the eggs and add to them the sugar and the grated rind of one orange. Do not grate in any of the white pith, as it spoils the flavor. Stir the mixture carefully into the macaroons and add the juice of two oranges. Pour into an oiled mold and set on a stand or rig in a kettle of boiling water. Simmer steadily for an hour. Serve hot with orange sauce.

**Orange Sauce**  
5 tablespoons butter  
1/2 cup sugar  
1/2 cup boiling water  
3 egg-whites  
Juice of 2 oranges  
1 1/2 tablespoon lemon juice  
Cream the butter with the sugar. Put into a saucepan over hot water and add the boiling water. Tie a beat in the stiffly beaten whites of the eggs, the orange juice and lemon juice and continue beating until light and foamy.

## The Engineering of the Royal Visit Broadcasts

Every day since the Empress of Australia reached Canadian waters, millions of listeners across Canada, in the United States, and at the far corners of the world have been able, through the magic of radio, to follow step by step the historic journey of King George VI and Queen Elizabeth across the Dominion. This modern miracle of science, which abolishes time and distance, is taken so much for granted that few realize the magnitude of the engineering enterprise which has made this service possible.

In bringing to every home a vivid and accurate account of Their Majesties' tour, the engineers of the Canadian Broadcasting Corporation have accomplished without mishap what is regarded as the most formidable technical task in the history of actuality broadcasting.

Unlike the commentaries themselves, whose value depends essentially on the skill of the narrator who makes them, the credit for the smooth operation of the technical system which makes these commentaries possible, is shared by a vast army of technicians.

Under the supervision of the Chief Engineer of the Canadian Broadcasting Corporation, Mr. G. W. Olive, the responsibility for the direction of all technical arrangements for the Royal Visit broadcasts was placed in the hands of Mr. Alphonse Oulmet, head of the Corporation's Operating Department, and his staff. The engineering of these broadcasts has taken many months and has taxed to the limit the facilities and personnel of this Department.

New equipment was developed especially for these broadcasts by Mr. Oulmet and his assistant, Mr. H. E. S. Hamilton, who also travelled across Canada on the Royal Pilot Train to supervise last-minute arrangements. At the same time, other engineers of the operating group, Messrs. A. B. Ellis, M. L. Poole and W. A. Reid, were co-operating with the engineering representatives of the Corporation in the various provinces in the detailed preparation of equipment, personnel and network facilities at each point.

In Quebec City, the efforts of 30 engineers and technicians, who prepared and controlled the local broadcasts, which involved no less than 15 pickup points, were directed by Mr. G. E. Sarault, Regional Engineer for the Province of Quebec, assisted by Mr. C. Frenette, Engineer in Charge of the Corporation's Station CBV, of Quebec City.

In Montreal, also under the supervision of Mr. Sarault, the technical activities at 10 especially chosen points of vantage along the 255-mile route, were conducted by Mr. E. D. Roberts, Engineer in Charge of the Corporation's studios at Montreal, the largest in Canada.

At 7, the efforts of some 20 engineers and technicians who prepared and controlled the important broadcasts, which included the color-

Tuberculosis presents its greatest dangers in the years 15 to 45. While no age is free from tuberculosis it kills more persons between these ages than at any other time of life. Too frequently the cause—the bacillus tuberculosis—has been picked up in childhood. Practically every new case of tuberculosis results from contact with someone who has the disease in an active stage, that is in the stage during which the person is shedding the germs in his sputum. For this reason each member of a household where a case of tuberculosis has been found should be carefully examined and if the discovered case is an open one—that is, infectious to others—every effort must be made to prevent the spread of infection to others in the family. This is best accomplished by sending the infectious one to a sanatorium if that is possible.

Tuberculous infection is especially dangerous to little children in the family and the closer the relation between the infectious and the children, the greater the danger.

Persons unaware of their infection are more likely to spread the disease than those who know they have it. A mother or a grandfather may have so-called "asthma," an uncle or a father "a smoker's throat," another may have "a husky throat." Any of these ailments may be hidden tuberculosis. The first signs of the disease may be an unexplained tiredness, weakness or chest pains. Later, there may be loss of weight, a slight cough that drags on, or spitting of blood.

**Beauty for YOU**  
The Secrets of Good Looks  
by Barbara Lynn.  
CHASE YOUR WRINKLES!

So many women defer proper skin care until wrinkles appear when, of course it is so much more difficult to repair the damage.

The best way to avoid wrinkles is to begin early, taking regular care of the skin. Don't make it a grim, teeth-grinding matter! Just a few minutes each day.

If you already have wrinkles, here are some specific hints: Around the eyes and on the temples, take a dab of three-purpose cream and pat it gently in with the finger-tips, working outwards. Wrinkles on the brow need more vigorous massage. Smooth a course with the finger-tips along the lines of the wrinkles, from the centre of

## HOW DOES YOUR LABEL READ?

**The Family DOCTOR**  
By JOHN JOSEPH GAINES, M.D.

**NEEDLESS TRAGEDY**  
About three years ago, a housewife began to feel unable to perform her usual duties, she consulted a physician, who found a small tumor of the uterus. She was about 40. The doctor kept her under observation saying "I can't see the thing at any time, but will try to cure without surgery, if possible."

She observed that the tumor grew rapidly, in spite of his palliative measures. The patient, distressed and changed doctors. The new doctor paid no attention to the tumor, and said she had diabetes, placing upon a strict diet at once.

For feeling any better as time went on the patient had the "staff surgeon" of a quick institution make a urinary; this self-styled "expert" discovered that the patient had Bright's disease. Time went on—dragged on. Haemorrhages set in, which with the diet, greatly weakened the poor woman. A third doctor said it was "the change" and that "all women were troubled that way."

On advice from her second physician, she went to a hospital in the nearby city. Here she was subjected to a clinical diagnosis, and was told that it was not advisable to do anything radical at that time. She returned home and kept on diet—and living.

She applied to me about one week ago at the writing. I found absolutely no diabetes or Bright's disease. A search for the source of the bleeding revealed cancer, involving nearly every organ within the pelvis and long past the stage where operation could do more than to hasten the end! She has no prospect of living over six months, if that long. Had this growth been removed PROMPTLY by the first physician—and he was capable—she might be well today. But the vitally precious interval has passed, and by neglect and utter ignorance of conditions. Unless one knows that it is NOT a malignancy, it is better to operate than to take chances. Remember that.

**Only DUNLOP 'FORT' has 2000 TEETH TO GRIP THE ROAD!**  
Now is the time to turn in your worn tires and fit your car with the new Dunlop 'Fort'. It's the most revolutionary tire achievement in over 50 years of Dunlop leadership... 2000 SOLID RUBBER TEETH—over 5000 sharp edges give you silent, safer traction to double your confidence in every driving condition.

## THE PRUNING OF SHRUBS

Ignorance in the pruning of shrubs causes a great many garden disappointments, states R. W. Oliver, Division of Horticulture, Central Experimental Farm, Ottawa. Shrubbery grows into a jungle if neglected. When improperly pruned, tall shrubs grow "leggy" and low ones make round balls. Badly pruned shrubs frequently fail to produce satisfactory bloom.

Most of the trouble is due to an old-fashioned idea that "shrubs should be cut back in the Spring". Only a few of the garden shrubs should be cut back in the spring. The majority should have their oldest branches thinned out after they finish blooming.

Both the early and late blooming hydrangeas, spiraea Anthony Waterer and garden roses should be cut back in the spring to a point just above the second or third bud on strong shoots of last year's growth. All weak or twisted shoots should be removed entirely. These shrubs bloom at the end of wood of the current season's growth so that cutting them back as described above forces out a few strong young growths and produces large flowers. If these shrubs were left unpruned there would be more but smaller flowers on shorter stems. The majority of flowering shrubs, however, bloom quite early in the season from buds formed on last year's growth. Lilacs, honeysuckle, forsythia, mock orange, wiggelia, and the common spirea are all of this class. These should not be cut back if any bloom is desired, as cutting back last year's growth removes the flower buds.

In such shrubs the object of pruning is to thin out the bush so that air can circulate through it and sunlight reach its leaves. This keeps the foliage healthy even on the lower branches and prevents the shrubs from growing "leggy". Healthy foliage promotes vigorous growth and abundance of bloom.

To thin out these bushes properly one needs to remove two or three of the oldest branches each year, cutting them out as close to the ground as possible. This encourages the shrub to throw up young vigorous shoots from near the ground. By removing the oldest wood the shrub is always formed from fairly young, vigorous wood which will produce good bloom.

Dead or damaged branches can and should be removed at any time,

and after the old wood has been thinned out, all dead flower heads should be removed except in the case of shrubs which have berries or other attractive fruits.

In parts of Canada which have an average climate, shrubs of this class should be thinned out immediately after blooming. In colder districts the work should be done in spring, as summer pruning may induce late growth resulting in winter injury.

## A GOOD PASTURE

## YIELDS PROFITS

The term "good pasture land" through long misuse too frequently conveys the idea of land unsuitable for any other purpose, says G. R. Snyder, soil chemist. So accustomed are we to this false conception of the possibilities of permanent pastures, that it is difficult to appreciate the fact that the total nutrient value of the produce from such well fertilized permanent grass areas may easily surpass that of any other rotation or combination of crops grown on the farm.

The remarkable results obtained from the feeding of artificially dry young grass and grass ensilage, as well as the decided preference shown by the grazing herd for the herbage on the fertilized portions of the field, has attracted a wider interest in the potentiality of this oldest but most neglected crop.

Briefly, good pasture management calls for a mixture of perennial grasses and clover, never allowed to grow more than seven or eight inches high and treated every three or four years, preferably in fall, with a high phosphat-potash fertilizer, at the rate of 400 or 500 lbs. per acre. The clovers furnish the nitrogen supply, but lime may be needed if the soil tends to be distinctly acid in reaction. Improved pastures mean more profits from milk and meat and a soil kept secure for future generations.

Although each Indian tribe had a separate dialect, most tribes could communicate by means of a common sign language.

## The Dial Review by Walter Dales

Cupid and the urge to travel have combined to take heavy toll at C.J.C.A. this past month. On Thursday night Betty Turner, Secretary to the Manager, boarded a train for Victoria where she is to be married.

The following evening Dorothy Horrocks became Mrs. Merrell Dahlgren, retiring from her position as C.J.C.A. continuity writer... and becoming instead a homemaker for C.J.C.A. con-trol M.D. Merrell asserts that her cooking is ace-high!

Alta Magoon, station accountant, left on Tuesday, the 27th, for a trip abroad. Staff members gathered at

the station to give her a rousing send-off on her two-months trip.

The same day Ed Chown, Commercial Department Chief, went holidaying to points unknown. Stewart McKay is at San Francisco, and Norris McKenzie is preparing for his trip to Jasper. Manager Frank H. Elphicke is at Calgary, Norm Bottrell holding the reins in his place.

New Book on Radio

"The Production and Direction of Radio Programs", by John S. Carllie, production manager for Columbia Broadcasting System, reached the bookstands this week—and it's a winner! Because of its exhaustive study of the work of all the people involved in building a program, inter-relationship of every phase, this book is destined to prove of interest to those already employed in radio, as well as to students and other interested in the broadcasting industry. Material is illustrated by actual happenings within the experience of the writer, reprints from scripts that have been heard on the air, and photographs and diagrams of studios and studio set-ups in which he has worked. To illustrate the way a show is timed, he reprints an actual script with the production man's timing as it is aired. Other plates illustrate "studio sign language" familiar to all control rooms. Still others show the musical set-up for different types of orchestras as used in network studios. (Published by Prentice-Hall, Inc.)

This book should be a worthwhile aid to the discriminating listener. It gives him an insight to the mechanics of the programs he prefers. It shows the sincere attempt that radio is making to raise the calibre of its entertainment.

One instance of the new desire on the part of production men to make their material more interesting is the case of "Howie Wing". Here was a juvenile air show. The author was wise enough to realize that many a young fellow today knows aviation rather thoroughly—and can spout the technical terms with the facility of experts. So he resolved that "Howie Wing" should be one youngster show with verisimilitude—a round-mouthed word writer uses to mean "having the appearance of truth". "Howie Wing" as a young aviator, is allowed only those experiences that are practical.

He has his thrills, of course, but they are thrills that might well happen under the circumstances.

Furthermore, the author is determined that every detail of background and sound-effect ring true. Next fall the locale of the story will be North-ern Alberta. This month the author is flying through the North—visiting the places where the story action will take place. Magazines can go on throwing wild-west stories at their readers—stories written by men who've never seen a cowboy and have no desire to do so. But radio has a different idea. Radio is a medium that demands that its authors know where they speak. I think you'll agree that the attitude is healthy.

Another program that receives hours and hours of preparation is the Carnation Contended Program, with Mark Webber and his violin. Each week the music of a different country is featured. This involves a good deal of research work on the part of musicians and announcers alike—but

**New "COOLING SYSTEM" for Summer**

**LARKSPUR BLUE WINDOW SHADES**

Even the name sounds lovely and cool, doesn't it? We can't think of anything that makes a room look and feel cooler than soft clear blue cloth window shades. The color itself (it's absolutely new) is soothing to the eyes, besides keeping out the glare of the hot summer sun.

Just imagine how charming Larkspur blue will look in a living room with curtains of white, cream, yellow or blue. They'll be particularly splendid for your bedrooms to keep light and heat from your own and your children's eyes. In fact, we can't see why they wouldn't be ideal for your kitchen as well—blue combines so beautifully with almost every color you can think of!

We've discovered these are exceptionally fine woven cloth window shades that have been "processed" for long life. That actually means years of wear. It means also that they won't crumple up after sudden rain storms! That steam from bathrooms and kitchens won't hurt them. You'll be able to order them at every good department store or window shade shop. Don't forget their charming name—Larkspur blue!

when you tune in the show at 7 Monday nights, you realize it's worth the trouble taken!

## The World of Wheat

H. G. L. Strange.

Director, Research Department, Seale Grain Company, Ltd.

"The agricultural scientist has helped farmers to make two blades of grass grow where only one grew before, and has assisted in many ways to increase farm production, but what does the agricultural scientist now intend to do in helping to distribute or to market those products now held as unsold surpluses?"

This was part of the address of welcome by Mayor Telford, of Vancouver, to the recent conveners of the Canadian Seed Growers' Association and of the Canadian Society of Technical Agriculturists.

One part of the answer given to His Honor the Mayor was that besides increasing production, the scientist had also greatly increased quality, and that it was this superior quality contained in Canadian grains and in alfalfa, grass, field root and garden vegetable seeds, that was enabling these stocks to be sold in foreign countries in much larger quantities than could be done had the extra quality not been present.

The scientists admitted, however, that in spite of the extra quality there were still unsold surpluses, and that therefore, something else was needed too. What this something else was explained by the agricultural economists, and that important matter I will discuss in a forthcoming

ing article.

Following factors have tended to raise price: Official confirmation of crop deterioration in Russian Trans-Volga regions—Reports of unfavorable harvesting weather in U.S. south west—U.S. Department of Agriculture indicates sizable reduction in northern hemisphere crops—Egypt reduces customs duties on foreign wheat—Indications that Spanish wheat crop below requirements.

Following factors have tended to lower price: Indian monsoon active and prospects for autumn sowings favorable—Condition of newly seeded wheat in Australia and Argentina satisfactory—Floating wheat stocks increase—Slow consumptive demand for corn in Europe—Russia again reported offering wheat, and making sales to Greece—German rye prospects good, wheat condition average.

BRUCE BARTON  
Says

## \* . . Forces More Powerful Than Men

The principal lesson one learns in going around the world is that men do not make national policies and that the forces underlying national policies are tremendously more powerful than men.

I am not fond of the Japanese, but I understand their problem—the terrible pressure of sixty million people pent up in tiny little islands. I do like the Chinese, and I have some understanding of them also. They are a vast collection of families. Their loyalty is to the family, and as for who rules them the great mass hardly cares.

In India the Mohammedans hate the Hindus, and both hate the English. How India can ever be anything but a seething menace is difficult to see. I do not know the Italians, but in looking at the map I saw no outlet for their over-crowded population but to the south.

I like the Austrians and Hungarians, both proud people with dismembered territories, economically strangled. I like the Germans, and I wonder how long they can possibly be kept tied down inside their pinching boundaries.

Carlyle's old mother, when she laid down her son's first book, *The Life of Schiller*, remarked: "I see that foreign people have much the same feelings as ourselves."

These are not optimistic thoughts, but mighty plain blunt truth.

## \* . . Truth in Classics for Law Makers

"In order to spend on one side," said Goethe, "nature is forced to economize on the other." Taking up this theme, Darwin simplified it in *The Origin of Species*, declaring that "if nourishment flows to one part or organ in excess, it rarely flows, at least in excess, to another part: thus it is difficult to get a cow to give much milk and fat and redness."

Goethe and Darwin were considering Nature's law of compensation, which is as ancient as the rocks. Emerson discussed it in a famous essay which every law maker ought to be compelled to read at least once a year.

"This law," he says, "writes the laws of cities and nations. It is in vain to build or plot or combine against it. Things refuse to be mismanaged long. Though no checks to a new evil appear, the checks exist and will appear. If the government is cruel, the governor's life is not safe. If you tax too high, the revenue will yield nothing. If you make the criminal code sanguinary, justice will not convict. If the law is too mild, private vengeance steps in. First or last, you must pay your entire debt. Persons and events may stand for a time between you and justice, but it is only a postponement. You must pay at last your own debt."

The leading manufacturers know that the only road to larger profits is via lower prices. All business men recognize that every added price burden means fewer sales. Unfortunately there seem to be some law makers who cling to the notion that they can over-milk and still have a fat cow.

## AMONG THE OLD-TIMERS

"REMINISCENCES OF OTHER DAYS"

## TEN YEARS AGO

Mr. Rufe Carl and family are here from Chilliwack, B.C., to visit with his son Lou at Greenshields.

After a trip to the Mayo Brothers clinic at Rochester, Mr. Chas. Day, is returned home to Gilt Edge feeling much improved in health.

Mr. and Mrs. G. Siddall and family and Dr. and Mrs. H. C. Wallace and family left on Tuesday for a motor trip to Seattle, Wash.

Misses Maud and Marie Brannard, who left on Tuesday for Quebec, were guests at a farewell party Friday evening.

Mr. F. Belts, of the Bank of Montreal staff, has been transferred to similar duties at Manville.

In search of better health, Mr. H. Montgomery left on Monday for an extended stay at the coast.

Mrs. A. Hausfelt left last week for a trip to Spokane.

A hail storm which visited the district last week practically wiped out the crops on the farms of Messrs. Shaw, Dietrich, P. O'Reilly and Hayden.

## HEATH

Olive and Fred Ford are camping at Clear Lake with the Junior U.F.A.

Henry Touchette is being treated in an Edmonton hospital and we hope he will soon be well enough to return home.

Mr. and Mrs. L'Heureux are on their holidays, spending part of their time in Edmonton.

Mr. and Mrs. Virgil L'Heureux and Baby, of Edmonton, were guests of Mr. and Mrs. Bill L'Heureux last week.

A number of friends honored Miss Alma Potvin at a birthday tea on Friday afternoon.

Mrs. Colin Dixon and family left on Thursday to join Mr. Dixon at Derwent. A farewell party was given in their honor on Wednesday evening.

The Heath Gospel Mission are holding their annual convention this week. A large number of visitors from all parts are present to attend the services.

Mrs. Sonnen's birthday was celebrated by the Birthday Club with a tea on Saturday afternoon.

A large crowd was down at Clear Lake on Sunday afternoon, enjoying the pleasures of the lake.

Morton Herbert returned home from the north on Sunday last. He reports little work available there.

A dance hall has been erected at Clear Lake and they expect to be open for dancing this week.

Ruth Jones is spending a few days at Clear Lake, visiting the Spornitz camp.

## GILT EDGE

On Sunday the Gilt Edge boys defeated Mayfield by 25 to 4.

Mrs. O. Olsen has returned from her motor trip with Mr. and Mrs. F. Adams to Saskatchewan. They had a fine trip despite the rain.

Mr. Andy Adams spent a few days visiting some of his friends here.

At the Gilt Edge Park picnic the boys had to play two games, first defeating Hope Valley and then Mayfield.

Mr. and Mrs. G. Creech have left our midst to visit some relatives near Lloydminster.

Miss Clara Denoncourt spent a few days at the home of Mr. and Mrs. E. Denoncourt.

A few from this district attended the stampede at Czar. They said the stampede wasn't bad but the roads sure were.

## SYDENHAM

Mr. and Mrs. Ted Goddard, of Gilt Edge, and Mr. and Mrs. Gordon Carl, from Greenshields, were visiting at the home of their parents on Sunday.

Mr. Allen Glenn and Ian are due to return home from camp on Tuesday.

Some nice showers have fallen during the week, accompanied by warm weather, putting crops and gardens in nice shape, with wheat heading out in some of the early crops.

Miss June Seabrook returned to her home on Saturday after spending the past week visiting at Gilt Edge.

The famous honey bread baked in France and Germany will keep for a year and a half without drying out or spoiling.

## FIFTEEN YEARS AGO

Due to the explosion of some gas, fire broke out at the rear of the Sawers' store on Wednesday, but was extinguished before much damage was done.

Mrs. Charles Ham, of Covina, Cal., is in town visiting her parents, Mr. and Mrs. P. Springer.

Mr. A. Skoke, of the Irma district, was brought into town, where he underwent an operation on his foot at the Horse hospital.

Miss Geraldine Florence Duclos, daughter of Rev. J. E. and Mrs. Duclos, of Edmonton, became the bride of Dr. Heber Leon Courcier, son of Mr. and Mrs. H. N. Courcier, of Rev. Skoke, B.C., at a pretty ceremony at the home of the bride's parents.

A young lady who got into difficulties while bathing in Mott Lake was rescued by Mr. Elder (fully attired) on Wednesday.

Mr. A. Taylor has moved his family to their farm north of Irma.

Mrs. Geo. Glass and children left last week to spend the holidays with her relatives in Portland.

Mayor and Mrs. Gerow left on Friday for an extended motor tour through different points in Canada.

Mrs. Tolmie left with her family to spend a holiday in the East.

## EDGERTON

With still more moisture on crops and gardens smiles are growing wider and wider, and now that the prospects of a real crop are so promising, let us hope that we shall be spared hail.

Rain may be all very well for the growing things, but it certainly does mess up the roads—the brand we have around here, anyway—as the baseball team that went to Wainwright Thursday evening found. Not only was it a long and miserable trip but they lost the game into the bargain—too, too bad!

Mrs. H. A. Kelly entertained the members of the W.A. (Ang.) at their July meeting, in her cabin at Clear Lake.

We rejoice with Mr. W. J. Cornfield, because it is now practically a certainty that he will not have to lose the thumb so badly injured two weeks ago. It surely is a lucky break for him.

Born, to Mr. and Mrs. A. Shaw, on Thursday, July 6th, a son, at Edmonton.

All the sick folk we mentioned last week are making satisfactory progress, but we are very sorry to say that three more of our citizens have been taken to hospital, Mrs. Earl Hallett and Mrs. Norman Miles are both in the University hospital, and Lee Hallett was rushed to Wainwright late Saturday night for an emergency operation.

Mrs. Tom Shaw entertained at a bridge Tuesday afternoon, July 4th, in aid of St. Mary's W.A.

Work has already commenced on the school, and we overheard one bright young hopeful say: "Geel! hope they don't build it right, so that it'll fall down just before school opens."

We seem to remember wishing similar things—way back when—but in all fairness, there was a reason then; school was school, oh definitely, whereas it sounds like anything but nowadays, that is, if we are to believe some of the things related by various scholars.

The Rev. C. H. Morrison, the new minister at the United Church here, conducted his first service on Sunday, July 9th. A fair congregation turned out to welcome him.

Mr. R. F. Gardham and the Misses Ellen Pawsey, Lois Kingston and Rena Stratton left early Monday morning for Kapaswin Beach, where they will attend Summer School for a week or ten days. Mr. P. S. Pawsey took the party to Wainwright on the first leg of the journey and they will continue to their destination by bus.

Following reports that Friday's hail storm had done no damage, we learn that the crops of F. L. Krill will suffer considerably. A very conservative estimate is stated as 50 per cent. at least, to the crop, as well as three windows broken in his home.

George Phillips and Norman Macdonald drove to Paradise Valley on Sunday to take part in a tennis tournament. They report having had some splendid games, but failed to "bring home the bacon". Anyway, they must have had good practice because they played on the home courts in the evening and won all their games.

The death of Mrs. Newman, Sr., aged 85 years, occurred Sunday, July 9th, at her home north of Edgerton.

Taurus, the "Bull", is believed to be the first named sign of the Zodiac.

## GREENSHIELDS

Just recently Mr. and Mrs. E. Harrington purchased a Plymouth sedan and are now enjoying a holiday with relatives at Clive, Alta.

Messrs. Rufus Carl and Leo Cowan are visiting the latter's home in Biggar for a few days.

Master Maurice Chartier was taken ill Thursday last and was rushed to Edmonton for medical examination. He is now home again and quite recovered, we hope.

Mr. and Mrs. T. Daniels drove to the city Friday to visit their son, who is confined to hospital there.

Quite a number from this district joined the crowd at the Czar Stampede Thursday to witness the prize winning events.

The meeting at which Mr. Fair, M.P., and Mr. Mason, M.L.A., were to speak in the hall Friday evening was rained out. One of those good heavy showers came about seven o'clock that evening.

Mr. and Mrs. Ralph Marshall and daughters were down from Edmonton Sunday to enjoy a visit at the Walter Jackson home.

Mrs. M. E. McDougall returned to her home at Loughheed on Sunday.

## SCHOOLBOY HOWLERS

A spinster is a bachelor's wife. A wife of a duke is a duchess. A yoke is part of an egg.

The Tower of Babel was the place where Solomon kept his wives. A virgin forest is one where the hand of man has never set foot.

Put the following words in a sentence—Bliss, happiness. Ans. "Oh bliss! Oh, happiness!"

A gargyle is something you swallow when you have a sore throat. A woman's brain weighs almost as much as the human brain.

Pernia gave us the dismal system of mathematics. Homicide is when a man kills himself in his own home.

A sirloin is the only article of clothing worn by Gandhi, the leader of India.

He was arrested and held in custody until his trial. He died of a painful melody. A metaphor is a thing you shout through.

Diabolic was a man who went round with a lantern searching for an honest man. In olden times the parents arranged the marriage and the bride never saw the groom until the wedding night.

What has the government done to protect the Indians? Ans. Put them in reservoirs.

## MAGIC FOR GARDENERS

The stimulation of root growth in plant cuttings has been accomplished by the use of a new synthetic substance called "Hortomone A". According to a writer in the June issue of C.I.L. Oval, this preparation, which contains the properties of hormones, has already proved its value in several experimental stations and nursery gardens, where it has increased the rate of rooting and the percentage of success not only with cuttings but with stock plants with those which under ordinary circumstances are very difficult to root.

By encouraging the rapid formation of a strong root system, this preparation minimizes the danger of attacks by fungi and bacteria. It also makes possible the taking of cuttings at any time of the year.

During 1937 the Dominion of Canada produced 32 per cent. more pig iron than in the preceding year.

HOTEL GROSVENOR

There is an ever-increasing favoritism about Hotel Grosvenor that brings the guests back again and again. The rates are low, the accommodation excellent and the dining room meals and service are very popular. There is no bar, nor other objectionable features. Make the Grosvenor your Vancouver home during your stay.

## IT HAS MADE NO DIFFERENCE!

Certainly NOT! The same complete and efficient service which we have given during the past five years will continue now we are in our NEW BAKESHOP in the Snyder Block, Main St., just opposite our old stand.

Our Bread, Pastries, Cakes, Buns, etc., are now famed throughout this territory for Purity and Excellence and a phone call to 13 will bring our delivery man, who is at your service at all times.

## SPECIAL INTRODUCTORY SALE OF RUBBER TRACTOR TIRES

In order to introduce our Tractor Tires quickly into every district of the Prairie Provinces, SPECIAL DISCOUNTS WILL BE GIVEN to the first three purchasers of full sets of these tires, for whatever tractor required, in each of the districts serviced by the local newspapers carrying this advertisement.

The tires offered are the SUPER POWER GRIP line, having giant knobs on the tread, giving double ordinary traction—forward, backward or sideways—and manufactured by Montgomery Ward & Co., of Chicago, for whom this Company is exclusive distributor in the Prairie Provinces. These tires are FIRST CLASS QUALITY (none better are made), and at LOWEST PRICES. Further, 15% discount will be given to the first purchaser, 10% discount to the second purchaser, and 5% discount to the third purchaser, in each district, from our Regular Low Prices, during this Sale.

Descriptive catalogue with prices and full information, showing how your steel wheels can be cut down on our shops and fitted with rims and tires, at a great saving to you, will be mailed the same day as inquiry is received from you.

## Notice to Stock Owners re THE BRAND ACT

The Brand Act, Chapter 66 of the Revised Statutes of Alberta, 1920, as amended, stipulates:

"Section 17.—Any person who—  
(a) brands or directs, aids or assists in branding any stock with a brand, vent or mark which has not been recorded under the provisions of this Act or which has been cancelled thereunder shall be guilty of an offence and shall in addition to any other penalty to which he may be subject by law, be liable on summary conviction thereof, to a penalty not exceeding the sum of Two Hundred Dollars and costs."

It is illegal to use an unregistered brand. Furthermore, stock owners may lose any stock branded with unregistered brands, through other persons registering those brands and thereby securing legal claim on animals bearing them.

Protect your own interests by registering your brand with the BRAND RECORDER, DEPARTMENT OF AGRICULTURE, EDMONTON, at once.

Alberta Department of Agriculture

## Good Advertising Is Not An Expense

If you think so, get it out of your mind—it isn't.

Carefully prepared copy, well printed, sent to a logical consumer of the product that you have to sell is the cheapest way to reach his eye and attention and thus prepare for his interview with you or your salesman. Because, after all, if you can talk with him and he needs your product the ground work will have been done by thoughtful advertising.

And when you have left him—what then? Have you had the proper kind of follow-up literature to cement that contact?

Of course, this advertisement is merely intended to cause you to wonder if you may not be missing something by not knowing more about us.

We print—and we print well.

## Are You a Manufacturer?

What are you doing to help your dealers sell the product that you have sold to them? Are you backing them up with printed sales aids?

Do you furnish them with Hangers, Counter Cards, Booklets, Folders, Blotters, Window trips, Envelope Enclosures, etc.?

You don't? Of course, you realize that the greater help you can be to them the sooner and the oftener they will order from you—that's only good sense.

Perhaps, then, you need an organization such as ours to help you think along with you in this problem of creating sales for yourself by helping your dealers.

All right. We are ready when you are. We plan and produce Printing that sells goods for our customers.

## Hints for the Household

Conducted By Betty Barclay

### THE MACARONI FAMILY

Housewives plan to change the ways of serving popular foods in keeping with seasons. So let's not forget our friends, The Macaroni Family, now that warm weather is here. Macaroni, spaghetti, egg noodles and the other members of this popular family that are such favorites in other seasons can be turned into dozens of excellent summer dishes.

This wheat food being bland will blend naturally and tastily with vegetables, with fruits and with meats to make a well-balanced main course dish that is easy to prepare, healthful and filled with the elements needed for body sustenance in every season. Any way this food is served will prove a pleasing change in the menu. What more can one ask for?

As a change for the popular potato salad, why not serve a Macaroni Daisy Salad? Have you tried egg noodles as a cereal or as a dessert; or luscious spaghetti with butter? The folks will like them all.

Here are three summer recipes that you will find particularly pleasing. The manufacturer of your favorite brand of the macaroni family will gladly supply you with additional recipes on request:

**Noodles With Fresh Fruit**  
 1/2 lb. egg noodles  
 Fresh fruits in season  
 1 cup cream

Cook egg noodles in boiling salted water, till tender and drain. Chop slightly with edge of saucer. Mix with fruit cut in small pieces. Serve hot or cold, as a cereal, with cream. This is particularly good for children and relished as a dessert by your most fastidious dinner guests.

**Spaghetti al Burro**  
 All housewives plan at least one hot dish daily. Here's one that is easy to prepare and a family favorite for luncheon.

1/2 lb. spaghetti  
 1/2 cup butter  
 1/2 cup grated cheese  
 Salt and pepper.

Cook spaghetti in boiling salted water till tender and turn onto a hot platter. Add seasoning and butter. Stir till all strands are well buttered and sprinkle grated cheese over all. Excellent with roasts, chicken or fish.

### Macaroni Daisy Salad

Inasmuch as the average American family seems to have a growing mania for salads, try this one as a change from the popular potato salad.

1/2 lb. elbow macaroni  
 1 green sweet pepper  
 1 dill or sweet pickle  
 Salt and pepper  
 4 hard-boiled eggs  
 1 large ripe tomato  
 1 medium onion, chopped fine  
 1/2 cup French dressing or mayonnaise

Cook macaroni in boiling salted water till tender, then drain. Cut into small pieces. Add green pepper, pickle, salt and pepper. Add hard-boiled eggs, tomato and onion. Mix well. Add dressing or mayonnaise. Chill 12 to 24 hours in refrigerator. If desired, add 1/2 cup finely cut walnut meats to chocolate mixture before turning into mold. Unmold. Serves 12.

**Modern Women**  
 CHAIR ORMOND WILLIAMS  
 President of National Federation of Business and Professional Women's Clubs, Inc.

Painting exotically colored deep sea flora and fauna is something that interests Miss Elsie Bostleman who has assisted Dr. William Beebe in his explorations of the depths of the ocean. Miss Bostleman uses an iron music rack to which she fastens her canvas and her paint brushes are tied to strings and lowered from a boat. When she wants a certain kind of brush she reaches up and finds it dangling above her head.

A costume worn by Mrs. Grover Cleveland when she was our "First Lady" and in which she held the world record in lion shooting having killed two lions in two minutes with two shots. She is a well-known explorer and her trophies are numerous, including the skins of the two lions and her horns and many other hides she brought back from Africa. She keeps her aim from going bad by practicing in shooting galleries.

Miss Sally Clary, sculptor, taxidermist and hunter, says she holds the world record in lion shooting having killed two lions in two minutes with two shots. She is a well-known explorer and her trophies are numerous, including the skins of the two lions and her horns and many other hides she brought back from Africa. She keeps her aim from going bad by practicing in shooting galleries.

The art of bookbinding has reached a high point of beauty and excellence through Miss Marguerite Duprez Lahey who has encased many of the treasures of the Pierpont Morgan Library. Miss Lahey goes to Paris annually to select fine leathers for her work.

A flying pioneer among women, Miss Antonie Strassmann is trying to find ways of simplifying airship operation and make flying safer. Miss Strassmann came to this country from Germany.

**Onnais**  
 Cook elbow macaroni in boiling salted water till tender, then drain. Mix with green pepper, cut into small pieces, with tomato, sliced or chopped, with pickle, chopped fine, with 2 hard-boiled eggs, diced, and with onion. Season with salt and pepper, then mix all well with French dressing or mayonnaise.

Serve on four crisp lettuce leaves, with an egg daisy on top and garnished with parsley. The egg daisy is made by cutting each of the two remaining boiled eggs in half, using one half of the yolk for centre of the daisy. Cut the white halves into strips making a rosette representing the petals of the daisy.

### Luscious Chocolate Ice Box Cake

4 squares unsweetened chocolate  
 1/2 cup sugar  
 Dash of salt  
 1/4 cup hot water  
 1 tablespoon cold water  
 1 teaspoon granulated gelatin  
 4 egg yolks  
 1 teaspoon vanilla  
 4 egg whites, stiffly beaten  
 1/2 cup cream, whipped  
 3 dozen lady fingers

Melt chocolate in top of double boiler. Add sugar, salt and hot water, stirring until sugar is dissolved and mixture blended. Add cold water to dissolve gelatin. Add to hot chocolate mixture and stir until gelatin is dissolved, then cook until mixture is smooth and well thickened. Remove from boiling water; add egg yolks, one at a time, beating thoroughly after each. Place over boiling water and cook 2 minutes, stirring constantly. Add vanilla; cool. Fold into egg whites. Chill. Fold in whipped cream. Line bottom and sides of mold with waxed paper. Arrange lady fingers on bottom and sides of mold. Add this layer of chocolate mixture then arrange lady fingers and chocolate mixture in alternate layers, topping with chocolate mixture. Cut off lady fingers around sides of mold and arrange cut pieces on chocolate mixture. Chill 12 to 24 hours in refrigerator. If desired, add 1/2 cup finely cut walnut meats to chocolate mixture before turning into mold. Unmold. Serves 12.

### Magic Strawberry Milk Sherbet

(Automatic Refrigerator Method)  
 2-3 cup sweetened condensed milk  
 2 tablespoons lemon juice  
 2 tablespoons melted butter  
 1/4 cup water  
 1 cup crushed strawberries  
 2 egg whites

Blend sweetened condensed milk, lemon juice and melted butter thoroughly. Add water and crushed strawberries. Chill. Beat egg whites until stiff and fold into chilled mixture. Pour into freezing pan. Place in freezing unit. After mixture is about half frozen remove from refrigerator. Scrape mixture from sides and bottom of pan. Beat until smooth but not until melted. Smooth out and replace in freezing unit until frozen for serving. Serves 6.

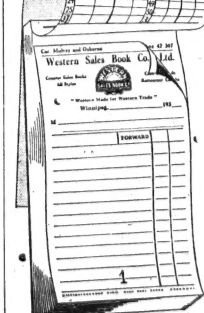

### Apricot and Orange Sherbet

(Automatic Refrigerator Method)  
 2-3 cup sweetened condensed milk  
 2 tablespoons lemon juice  
 1/2 cup orange juice  
 1/4 cup water  
 1/2 cup apricot pulp  
 2 egg whites

Blend sweetened condensed milk, fruit juices and water. Add apricot pulp; chill. Beat egg whites until stiff and fold into chilled mixture. Pour into freezing pan. Place in freezing unit. After mixture is about half frozen remove from refrigerator. Scrape mixture from sides and bottom of pan. Beat until smooth but not until melted. Smooth out and replace in freezing unit until frozen for serving. Serves 6.

### RAINBOW ICE CREAM MOLD

No need to puzzle over just which "color" and flavor to make the Easter ice cream, when 3 colors and 3 flavors can be made from one recipe, in one ice cream freezer:

### RAINBOW ICE CREAM MOLD

(Serves 8 to 10)  
 1 tablespoon gelatin  
 1 pint milk  
 1 pint whipping cream  
 1 cup sugar, beaten egg yolks  
 2 egg yolks (beaten)  
 1/4 teaspoon salt

Soak gelatin in 1/4 cup milk. Heat cream and remaining milk and add gelatin, stirring until dissolved. Add sugar, beaten egg yolks and salt. Blend carefully, remove from flame and cool.

Four mixture in freezing container of modern ice cream freezer and freeze, using 3 parts crushed ice and 1 part rock salt.

When frozen, remove cover, lift out dasher and divide ice cream into 3 bowls, placed in a shallow pan containing a mixture of 3 parts crushed ice and 1 part rock salt (to be used later in freezing the mold).

Tint each portion the desired color and flavor accordingly, working quickly. Then place creams in freezing container, in 3 layers. Cover and place back in freezer from which water, ice and salt have been removed. Repeat with 2 to 1 ice and salt mixture and let stand about 2 hours.

Turn out on plate lined with a paper dolly and decorate with jellies.

## Nancy Hart's HOME NEWS

Although fine tailoring is still at a premium, it's no longer chic to look mannish. The most interesting feature of this season's sports apparel is a casual look that requires almost care in fitting, grooming, and choice of accessories.

Red-heeled navy blue shoes and a matching red leather bag were highlights of a smart ensemble that recently made style-wise New Yorkers look and look around. Glimpses of a slate blue dress could be seen beneath the navy blue fitted coat. The hat was a trim, roll-brimmed model of fine navy blue straw.

Lina Cavalieri, world-famous beauty who rose from a flower-girl to a Russian princess and the toast of two continents, at last reveals in her memoirs the secret of her lovely skin. It's glycerine! Still fresh and youthful-looking at sixty-two, she says: "Women should never let their skins become dry. When this happens, beauty begins to fade. Even now, when I am no longer young, I rub my entire body with glycerine every night. And every morning I cleanse all grease from it. That's all."

Household Hint: If you have small scatter rugs and highly polished floors, avoid the danger of slipping by sewing small pieces of rubber under each corner of the rug and in the middle.

## Beautiful Floors

MAKE A HOME

# NEWS & VIEWS OF TOWN AND DISTRICT

Miss Georgina Wiley left on Monday for Calgary, where she will spend her two weeks' vacation.

Mrs. F. Gerald Conroy and daughter Barbara arrived in town on Monday to join Mr. Conroy.

Mr. and Mrs. Steve Bowerman and daughter Bessie left last week end for a holiday at Calgary, Banff and other western points.

There is an old proverbial saying that "The sole is half the soul". This is implicitly true, for who does not feel his natural self when wearing well-shod shoes—shoes which are repaired by skilled craftsmen with fine grade leather, essential for long service and comfort? For that added essential take your shoes to the O.S. Shoe Repair; the price, above all else, is pleasing. Harness repaired like new.

Mrs. W. Loudfoot is down from the city for a day or so on business.

Miss M. McBride is here with her parents while holidaying from her duties at the University hospital in the city.

Mrs. Fred Hart has her daughter Kathleen (Mrs. Hornberger) here on a visit from her home in Ottawa for a couple of months' holiday.

Blacksmith coal is available at the Atlas yard—Joe Welch, phone 57.

Both Dr. Springbett and Phil Pon are experiencing the joys of driving their new Ford cars these days.

"By the balmy breezes" was truly acceptable to combat the heat of Sunday last when the mercury went up around the 90 mark! Quite a large number visited the lakes for a cool swim.

Mr. and Mrs. Jim Ford, of Heath, are away to Unity to attend the funeral of their niece there.

The attention of our farmer friends is drawn to the demonstration hog brooder which has been erected by the Atlas Lumber Co. on Second avenue west. It will pay you to inspect this and figure your profits by owning such an improvement on your farm.

Mr. Earl Frickleton is planning to leave this week to enjoy his annual vacation at the coast for a couple of weeks.

We are glad to learn that Mrs. F. Walberg is getting along nicely now since she broke her ankle a couple of weeks ago.

We understand that at a nominating convention held at Mott Lake on Monday in the interests of the C.C.F. party, Mr. Henry Spencer, former M.P. for Battle River, was the choice of the gathering to carry their banner in the next Federal election.

Misses K. Rutherford, M. Cofield, I. Dundas and K. Wylie left on Tuesday for a holiday at the provincial C.G.I.T. camp at Sylvan Lake.

A couple of sign writers have been busy around town for the past week re-decorating a number of business fronts.

Get those repairs and painting done NOW. Let us fill your needs at the Atlas yard. Joe Welch.

Quite a nice improvement is being effected these days in the sidewalk repairs being made on Main street.

You can't afford to take chances when driving. Get insurance on your car if it's the last cent you have. The very best of drivers often meet some big fool on the road and the result is likely to be disastrous to you and to your family unless you can leave the matter to the insurance agent. Joe Welch will attend to it for you; phone 57.

Paul Spornitz is finishing his new dance pavilion at Clear Lake, and will "open for business" tonight (Wed.) at 9 p.m. These dances will be held there every Wednesday and Friday during the camping season from 9 p.m. until 2 p.m.

Miss P. McCausland is here from the city on a visit to her relatives, Mr. and Mrs. E. Dahl.

Mr. and Mrs. Jimmy Robinson left on Sunday for a motor trip south. They will take in the big Calgary Stampede.

Miss Eleanor Cork is now back from a pleasant holiday spent at Jasper Park.

Joint Presbyterian and United church services are being held in the church services are being held in the month during the absence of Rev. Dr. and Mrs. Stevens on a vacation.

Some 20 members of the local C.G.I.T. left on Monday morning to camp at Viking Lake for a week's holiday.

It was truly pleasing to see Mr. Arnold Harden again on the street on Friday last after his long and serious illness which followed his highway accident just a year ago.

To prevent lamp chimneys from cracking put them in a bit of cold water, gradually heating until it boils, and then let it cool slowly.

Miss V. Voros was a business tripper to the city last week end for a couple of days.

Having been transferred to the company's Camrose branch, Mr. V. McNally left for that point last week.

Mrs. Janet Forster and her daughters left last week to attend the funeral of Mr. Vic Forster, one of the real old-timers of Camrose, and a brother of the late Mr. M. L. Forster, of Wainwright, and sympathies are extended at their bereavement.

Rub steel blades of knives with emery paper before putting away for any length of time and they will not rust. Remember this when you close up house for a month or so.

Several carloads of townfolk motored to Viking to see a repeat of the Imperial Entertainers show and to take in the dance which followed.

Miss Clara Enger left at the week end for a holiday at the coast.

Art Dupre was in town from the city for a couple of days last week.

Mayor Middlemas left last week to pay a visit to his mother at the coast.

Mr. and Mrs. Albert Rattray left last Saturday to spend a holiday with relatives in the East and visit the New York world's fair.

Strawberries are so named because they were originally brought to market strung on straws.

Mrs. George Glass and her daughter Dolores left last week to spend a holiday with relatives at Portland Ore., U.S.A.

After a visit with his brother Jack here, Mr. Walter Telford with his wife and son, left for their home at McLeod last week end.

We are sorry to learn that Mrs. C. Forryan is on the sick list these days and wish her speedy recovery.

Miss Brown, matron of the hospital is entertaining a guest in the person of her sister from Edmonton, who is visiting her for a short holiday.

Mr. Tom Lissimore is away to Calgary this week to take in the big stampede.

The Irish potato is not Irish—it originated in South America.

Readers are warned to watch their change these days as quite a large number of counterfeit half- and quarter-dollars are floating around the district.

Posters from The Star office are announcing the big annual picnic at the Battle River bridge north of town. This is being arranged by the Communist Party of Canada, and is dated for Wednesday, July 26th.

Miss Thelma Vail, who has been suffering from a broken arm and was a hospital patient, has now returned to her home at Edgerton.

Read the advt. in this issue and then arrange to join the bunch at the new dancing pavilion at Clear Lake at the opening dance tonight (Wednesday) commencing at 9 p.m.

## WHAT THE SEVEN

### VITAMINS DO FOR US

Vitamin "A" in cheese, butter, eggs and cod liver oil, prevents eye disease.

Vitamin "B" in vegetables and cereals prevents beri-beri (a disease of the nerves).

Vitamin "C" in citrus fruits, such as lemons and oranges, prevents scurvy.

Vitamin "D" in fish and cod liver oil prevents rickets.

Vitamin "E" in wheat germ and green vegetables prevents sterility.

Vitamin "F" in liver and lettuce prevents jointed growth.

Vitamin "G" is milk, meat and yeast prevents pellagra (intestinal distress common in the south).
